ALEXANDRIA, VA · MAY 14, 2026

## Capstone Tech selected for inaugural Foundervine Accelerator USA cohort

Capstone Tech has been selected for the 2026 Foundervine Accelerator USA, the first U.S. cohort of one of the United Kingdom's largest startup accelerators. The program supports 24 early-stage founders in the DMV region with expert-led masterclasses, tactical coaching, and direct investor access. Capstone Tech joins a cohort spanning 18 industries, selected from more than 136 applications.

### Foundervine Accelerator USA: 2026 Cohort

BY THE NUMBERS

1 24

Founders selected for the inaugural U.S. cohort

2 136+

Applications received across the DMV region

3 18

Industries represented in the cohort

**Cohort profile:** 78% minority-led businesses and 35% have already raised from angels or venture capital. Foundervine has accelerated more than 1,600 businesses globally and helped founders raise over £103 million in funding.

"The full-time job is unbundling. The default career arc has shifted from one employer at a time to many, often at once. That fragmentation is structural and accelerating. Capstone Tech builds AI-native software for the new, fragmented workforce. The Foundervine Accelerator USA gives us the masterclasses, coaching, and investor access we need to grow that work faster."

Shawn Gregoire

Founder and CEO, Capstone Tech

### ABOUT THE PARTNERS

Capstone Tech builds AI-native software for the new, fragmented workforce. The company operates three platforms: Capstone Workforce for workforce development organizations, GrantParty for small nonprofits, and Capstone Outreach for solopreneurs. [capstonetech.co](https://capstonetech.co)

Foundervine is a global accelerator backing early-stage founders through masterclasses, coaching, and investor access. The Foundervine Accelerator USA expands its work into the DMV region. [foundervine.com](https://foundervine.com)
